# FINDING THE IDEAL SPA FOR YOU

## THE SPA LIFE

Packed with unsurpassed features and functions, a Cyclone Spa is the ideal centrepiece for outdoor entertaining, family gatherings, action-packed weekends or to simply enhance relaxation time.

Create the perfect atmospheric experience to suit your lifestyle, in your own backyard. Our AquaGlow™ integrated lighting system and AquaSound™ music system lets you set the mood whilst you enjoy the pristine water delivered by our advanced EcoSpa™ Filtration and control it all from the convenience of your own smart phone or tablet through the iSpa™ app.

## DESIGNED TO FIT EVERY NEED

Whether you're a couple or a family with lots of kids splashing around, a Cyclone Spa will deliver an experience that all will love.

Cyclone Spas offer a range of sizes and configurations designed to fit any backyard and every need. Choose the ideal amount of seating to host your party, or the perfect mix of hydrotherapy hot seats and reclined lounges to deliver the massage you desire.

---

## RELAX & UNWIND

If pure indulgence is what you desire, Cyclone Spas have a solution for you. Our entire range has been refined to suit your relaxation needs. Our massage Therapies have been custom designed to ensure you always get the maximum amount of enjoyment from your spa experience.

Play music and program lighting levels through the integrated iSpa™ Smart Control system to suit your mood and please your senses. With second-to-none comfort, Cyclone Spas let you relax and unwind in your own backyard, just how and when you like.

## THE HEALING TOUCH

Hydrotherapy is an extremely effective way to soothe muscular aches and pains. All Cyclone Spas feature our custom designed massage therapies that focus on water flow on to the back, shoulders, neck, legs and feet to help relieve muscular discomfort, stimulate recovery from injury, alleviate stress and help soothe your body and mind.

So, whether you're looking for ongoing remediation, recovery from sports ailments, or simply a relaxing massage, your Cyclone Spa will be there for you.

# TOTAL PEACE OF MIND

## AUSTRALIAN MADE FOR AUSTRALIAN CONDITIONS

All Cyclone Spas are manufactured in Australia and the entire range has been designed with the local climate in mind. This allows us to deliver your custom built Cyclone Spa quickly and efficiently and ensures every spa will not only stand the test of time, but is backed by a full manufacturers warranty.

Every Cyclone Spa is fully tested on completion of manufacturing using computerised diagnostic equipment and meets stringent Australian safety standards.

## BACKED WITH LIFETIME COVERAGE

Being built locally means we're able to offer you Lifetime Structural Warranty with your Cyclone Spa. This is backed by our local, Australian manufacturing and customer support teams, who are always here to ensure your spa remains in optimal working condition.

Relax, unwind and enjoy your spa with peace of mind knowing that if you should ever have an issue with your spa, we are here to help.

## CLEANER, SAFER, CRYSTAL CLEAR

Cyclone Spas employ the most advanced cleaning and filtration systems available to ensure your spa is a safe and absolutely pristine experience. In-built hydraulic systems that filter 100% of your spa's water volume through all pumps, with no suction in the footwell, delivering the cleanest possible spa water and a premium level of hydrotherapy, in the safest possible manner.

Our exclusive Microban® Filters, utilised in all Cyclone Spas, are loaded with antimicrobial protection, adding an additional level of protection, continually fighting bacteria growth in-between cleans.

## WHEN ENERGY EFFICIENCY MATTERS

Cyclone Spas, incorporating the EcoSpa™ Filtration technology, boast a 10-Star Energy Rating, allowing you to save on power costs whilst having a lower impact on the environment.

EcoSpa™ Filtration cleverly optimises water circulation and high flow rates to ensure heaters and pumps work as effectively and efficiently as possible while reducing the amount of chemicals needed to treat your spa. This also extends the life of most components in your spa, ensuring upkeep costs are kept to a minimum.

# THE CYCLONE DIFFERENCE

## TOTAL CONTROL, ALL THE TIME

Your new Cyclone Spa comes fully equipped with our advanced iTouch™ Smart Control touch pad. iTouch™ Smart Control allows you to intuitively interact with your spa, driving the entire experience from one fully integrated digital screen.

Fun and simple to use, with iTouch™ Smart Control you can easily browse the menu, adjust settings, pre-set functions, implement timer settings, enjoy enhanced controls like music selection, lighting options and so much more.

## PART OF A CONNECTED HOME

Aligning with the very best in modern technology, iSpa™ allows you to automate your spa experience alongside the other lifestyle features in your home – giving you ultimate control.

By connecting your Cyclone Spa to your Wi-Fi through your smart phone or tablet, iSpa™ gives you total control of your spa at your fingertips. This allows you to adjust temperature, turn your lighting on or off, all from the convenience of your own device, making it ready to jump in, when you are.

## ILLUMINATING SIGHTS

A spa experience, even in your own backyard, should evoke and excite all your senses. Feature-rich Cyclone Spas employ the AquaGlow™ lighting system that allows you to explore a myriad of moods, creating an atmosphere that is just right for you.

Integrated into iTouch™ Smart Control, AquaGlow™ lets you switch multiple lighting zones of colours and intensity, manage and synchronise effects and implement fast or slow fading to create a stunning visual ambiance.

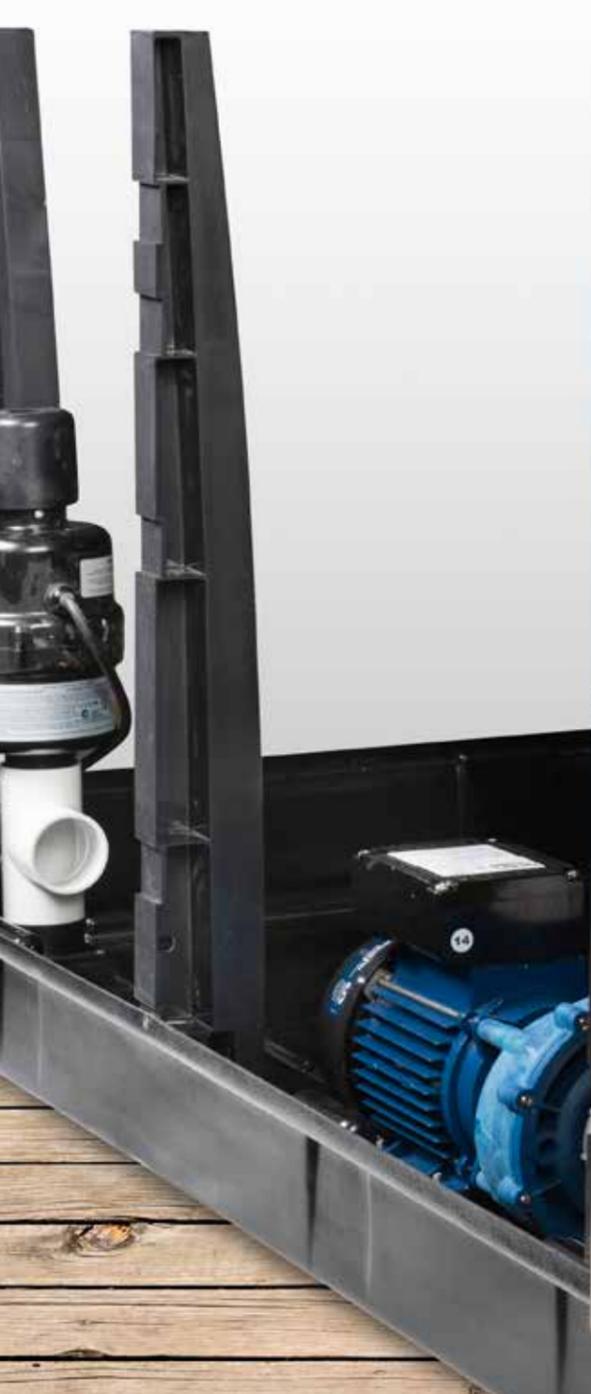

## THE PERFECT SOUND

Designed to deliver high fidelity, crisp, rich audio, AquaSound™ music features technology engineered to enhance your total outdoor audio experience.

Through iTouch™ Control you can access AquaSound™ via Bluetooth and enjoy crystal clear playback of your own music. Fully integrated, hidden speakers transfer sound through your spa surface, enveloping listeners in an immersive experience.

**iSpa™, AquaGlow™ and AquaSound™ come standard with the Cyclone Advantage range.**

## DRIVING AUSTRALIAN INNOVATION

Cyclone Spas are designed, developed and manufactured at our purpose built facility in Melbourne. Constantly seeking perfection, our dedicated team of engineers, researchers and industry experts spend countless hours creating the most innovative spas on the market.

This is displayed by the recent launch of our new TuffBase™ and TuffFrame™ systems. TuffBase™ is a fully moulded, singular piece foundation that insulates and protects your spa's essential services. TuffFrame™ is our proprietary spa construction system that is engineered to hold five times the operating weight of your spa. This combination delivers a more robust, better protected product with ease of transport and longevity of use.

## EASY CARE MEANS MORE TIME RELAXING

With our Easy Care maintenance system, your spa can be kept in optimal condition with as little as five minutes of your time per week. Water testing a Cyclone Spa has never been easier with the Spa Fresh dip-test system. Simply input your results online (at [testyourwater.com.au](http://testyourwater.com.au)) for immediate water quality calculations and treatment instructions.

Cyclone Spa filters are simple to change. With cleverly designed filter bays and covers that allow quick and easy access, it'll be 'out with the old and in with the new' in no time. Simple, easy maintenance and care leaves you with more time to relax and enjoy your spa.

## QUALITY COMPONENTS

Durable and longer lasting, Cyclone Spas are built to withstand years of sustained use. Built on our unique TuffBase™, Cyclone Spas employ only the highest quality materials and components that are extensively tested before use. This allows us to confidently offer you a 10-Year Lifetime Structural Warranty, along with a 2-Year Plumbing and Equipment Warranty.

Our TuffBase™ and TuffFrame™ are 100% timber-free and when paired with our eco-friendly EternaWood™ cabinets, you get years of easy maintenance, with very little upkeep.

## THERAPIES DESIGNED FOR PERFORMANCE

When we say there is a Cyclone Spa for everyone, we mean it. Our thoughtfully designed spa Therapies allow you to choose the perfect mix of relaxing and remedial massages across a wide variety of seating configurations.

Whether you prefer deep, soothing massage, isolated remedial massage, leg, feet and neck massages or a combination of them all, Cyclone Spa Therapy seats employ a mix of our own, custom designed marine grade Stainless Steel Jets. Combined with our high-flow pumping system, Cyclone Spa Therapy hot seats and reclined lounges are built for performance.

# THERAPIES

Whether it's pure relaxation you seek or relief from aches and pains across your body, Cyclone Spas give you ultimate choice in designing a solution to fit your needs. With flexibility in mind, we've created 9 massaging Therapies for you to consider, each with a different focus and function.

From broad-spectrum relaxation to targeted remedial treatment, you'll be sure to find a mix of Therapies that are just right for you. And, with the ability to interchange most jets within all of our Therapies, your Cyclone Spa will always deliver a stunning result.

## ZEN BACK THERAPY

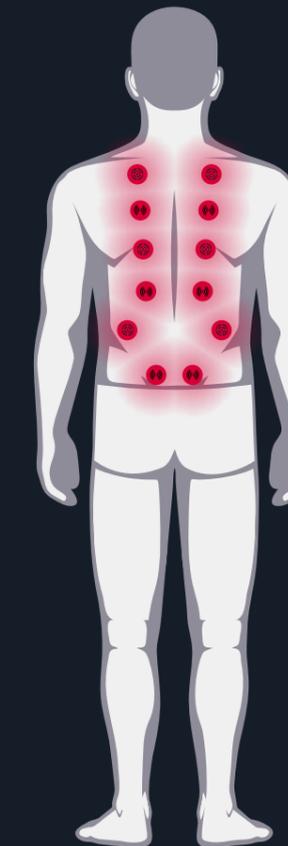

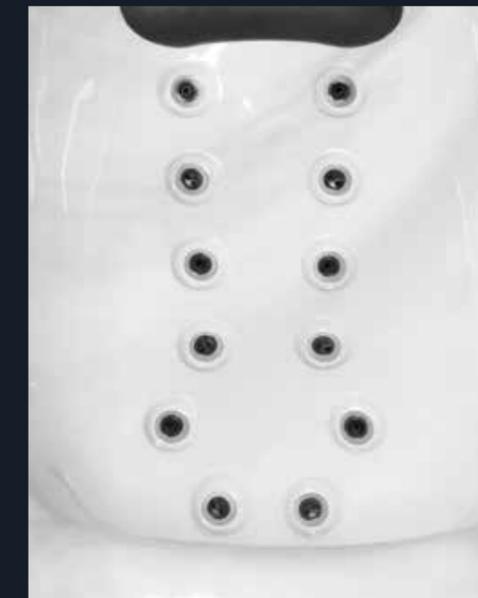

Inner peace doesn't seem that far away when relaxing in a spa. And, the Zen Back Therapy is the best way to unwind. Featuring 6 Large Hurricane Jets that give you complete back coverage, the Zen Back Therapy delivers a comprehensive massage that will melt away your worries in no time.

## RECOVER BACK THERAPY

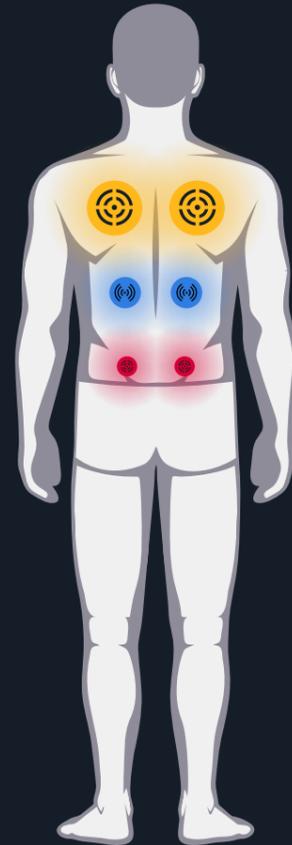

Whether you're recovering from a sports injury or a long day of strenuous work, the Recover Back Therapy is the perfect way to bring your body back to life. Featuring 8 Mini Hurricane Jets positioned along the spine, this hot seat is the ideal way to ease an aching back.

## HEALING BACK THERAPY

Relaxing in a spa is great way to aid healing of tired or injured muscles; The Healing Back Therapy has been designed with this remediation in mind. 12 Micro Hurricane Jets are perfectly positioned on either side of the spine and across the hips to target common problem areas.

## COMFORT BACK THERAPY

Just sit back and relax! The Comfort Back Therapy is just the right hot seat for those looking to indulge in a quality overall massage. Featuring a cascading set of 2 Large Hurricane Jets, 2 Mini Hurricane Jets and 2 Micro Hurricane Jets, the Comfort Back Therapy is a true all-rounder.

## RELAX BACK THERAPY

The Relax Back Therapy delivers a strong, soothing massage through the middle of the body. Incorporating a Large Hurricane Jet centrally positioned in the middle of the back, with two Air Shower Jets on either side of the lower back, the Relax Back Therapy delivers comprehensive relief to the entire body via the central spine area.

## VERTICAL RELAX BACK THERAPY

The Vertical Relax Back Therapy is designed for those looking for a massage targeted to the central and lower back. With 2 Mini Hurricane Jets positioned to target the spine and lower neck regions and 2 Airshower Jets configured to aim for your middle and lower back, the Vertical Relax Back Therapy delivers a strong, levelled tension release.

## HORIZONTAL RELAX BACK THERAPY

The Horizontal Relax Back Therapy has been designed to alleviate tension in your shoulders. 2 Mini Hurricane Jets are positioned to focus on the upper back and shoulder blade region, whilst 2 Airshower Jets target the middle and lower back, making the Horizontal Relax Back Therapy ideal for minimising middle to upper back aches.

## TENSION NECK THERAPY

The neck can be a major point of stress for many people. The Tension Neck Therapy alleviates aches through the neck, upper back and shoulder region. Micro Hurricane Jets are perfectly placed for targeted relief.

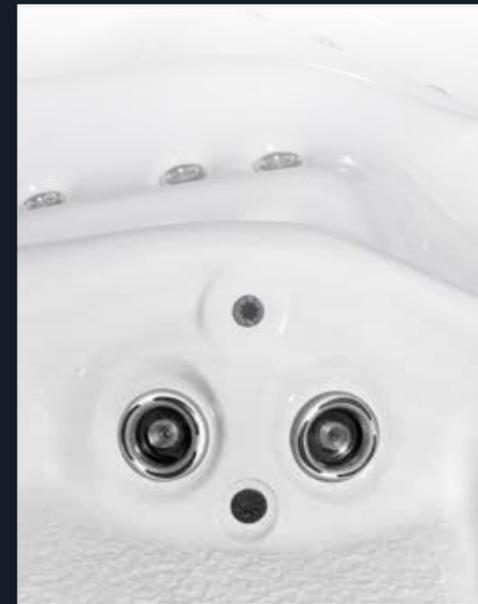

## SOOTHE LEG THERAPY

Loosening tight, sore muscles in your legs can be a soothing and relaxing experience. Featuring 8 Mini Hurricane Jets, The Soothe Leg Therapy targets the core muscles of your legs and in your feet and delivers an effective all-over leg massage.

## REFLEX FOOT THERAPY

Allowing stress to flow out of your body through the feet is a great way to ease all over aches and pains. The Reflex Foot Therapy features 2 Large Hurricane Jets that can envelop your feet in a soothing stream of high-powered water, stimulating circulation throughout the body.

# JETS

Cyclone Spas employ a series of highly engineered jets in each Therapy and throughout every spa. All our jets are made from marine grade Stainless Steel and have been custom designed for efficiency, longevity and precision.

-  DIRECT
-  PULSATING
-  KNEADING
-  AIR SHOWER

### MICRO HURRICANE JETS

Micro Hurricane Jets are designed to deliver a strong, targeted massage. The small jet face directs a high waterflow onto troublesome areas of the body, easing aches and pains. Fixed in position, these jets cannot be turned off or changed once installed.

### MINI HURRICANE JETS

Mini Hurricane Jets have been engineered for flexibility, precision and a comprehensive massage. Rotating the jet head allows you to control the water pressure and turn the jet on or off.

### LARGE HURRICANE JETS

Large Hurricane Jets deliver a powerful all-over massage. The broad-spectrum jet heads are interchangeable and designed to provide optimal coverage to your back and limbs. Rotating the jet head allows you to control the water pressure and turn the jet on or off.

### SUPER JETS

Super Jets deliver an ultra-high flow, allowing a large amount of water to pass through and over your body. This creates a turbulent action throughout the spa that circulates refreshing bubbling water around your body. Fixed in position, these jets cannot be turned off or changed once installed.

# MONSOON RANGE

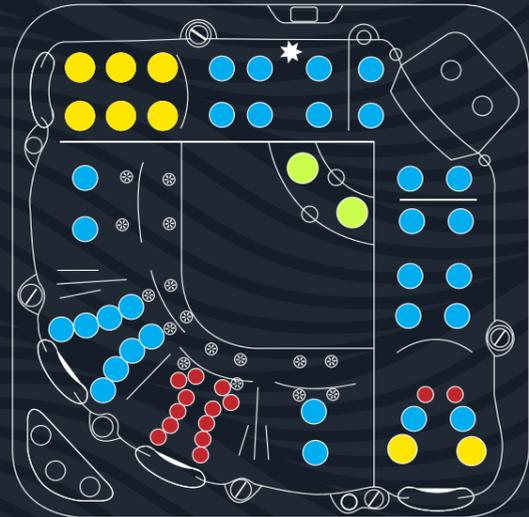

---

The Monsoon by Cyclone Spas is a large spa that seats 6 in luxury, making it a family favourite. Incorporating a mix of 9 massaging Therapies, 2 reclined lounges and 2 deep hydrotherapy hot seats, this spa allows you to choose the perfect massage to suit your needs.
