Indulge in unparalleled luxury

EXPERIENCE CUTTING EDGE INNOVATION

Boasting unparalleled features and engineered with the latest technological advancements, the Cyclone Spas range is the ultimate luxury centrepiece for any Australian backyard.

The Cyclone Spas range offers an array of sizes and configurations to meet every need and aesthetic preference for a truly customised spa experience. Find the perfect blend of hydrotherapy hot seats and plush loungers to indulge in your ideal massage with bespoke therapies that cater to your every relaxation desire, allowing you to revel in the benefits of hydrotherapy.

AUSTRALIA'S MOST TRUSTED SPA BRAND

With a proud legacy of over 30 years under Aussie Lifestyle, Just Spas has earned recognition for its exceptional quality and pioneering approach to developing world-class spas built in Australia.

Just Spas are committed to providing unparalleled service to each of our customers. We go to great lengths to ensure that every aspect of your spa experience, from your initial inquiry to the final delivery of your spa and its maintenance, is executed with utmost care.

AUSTRALIAN MADE FOR THE AUSSIE LIFESTYLE

For more than 30 years, we have been proudly crafting spas in Australia, ensuring maximum quality control by keeping our production on shore. To achieve an exceptional spa experience, we meticulously hand-select all the components from around the world, incorporating only the latest cutting-edge technologies.

UNMATCHED STRUCTURAL INTEGRITY WITH A 100 YEAR STRUCTURAL WARRANTY

The TuffFrame™ is an award-winning design, proudly manufactured in Australia, that comprises of multiple injection-moulded upright supports that connect to the TuffBase™ in the spa shell. The TuffFrame™ Structural System can support almost double the weight of a traditional spa frame.

THE CYCLONE DIFFERENCE

The Cyclone range from Just Spas is a revolutionary addition to the Australian spa market, offering an unparalleled spa experience unlike anything seen before. Built on a reputation of tens of thousands of satisfied Australian and international customers, the revolutionised Cyclone range incorporates cutting-edge technology and features that enhance every aspect of the spa experience.

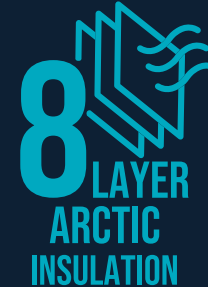

7-YEAR FACTORY BACKED KEY EQUIPMENT WARRANTY FOR A WORRY FREE INVESTMENT

World class warranty covering all your spa's key components, including pumps, control box, plumbing, heater, spa jets and valves.

SUCTION FREE TECHNOLOGY FOR A SAFER SPA EXPERIENCE

Advanced technology, including 100% filtration technology, provides a safer spa experience for Australian families.

8 LAYER ARCTIC INSULATION FOR THE MOST ENVIRONMENTALLY CONSCIOUS SPA

Featuring 8 advanced insulation layers, the Arctic Insulation system provides exceptional energy efficiency, lowering running costs.

BUILT TO LAST WITH A 25 YEAR SHELL WARRANTY

Our 25-year shell warranty guarantees enduring protection against leaks and structural defects. Crafted for ultimate durability, our Cyclone Spa shells are designed to provide decades of reliable performance.

A spa warranty like you have never seen before

7-YEAR KEY EQUIPMENT FACTORY BACKED WARRANTY

We are confident that we have constructed and engineered the best spas available in the market, which is why we provide Australia's most comprehensive spa quality assurances and the best spa warranty.

The Just Spas Cyclone Spas range offers a world-class 7-year warranty covering all your spa's key components, providing extended protection. This guarantee ensures complete peace of mind, as you can trust that your investment is built to last.

Our 7-year warranty covers all the major equipment used in your spa, allowing you to relax and enjoy your spa experience worry-free.

KEY EQUIPMENT COVERS

- 3kW Heater
- Massage Pump
- Circulation Pump
- Control Box
- Plumbing
- Spa Jets and Valves

Creating a safer spa experience

SUCTION FREE AND 100% FILTRATION TECHNOLOGY

Our suctionless technology for the Just Spas Cyclone Spas range surpasses Australian safety standards. It provides a safer spa experience that removes the suction point eliminating the risk of hair or clothing getting trapped.

Through new technology innovations, the Cyclone Spas design and jet configuration ensures water is directed towards the filtration system through a gravitational pull, resulting in a cleaner spa.

Our Cyclone Spas have unparalleled 100% Filtration Technology that can clean 1,000 litres of water every 10 minutes, ensuring maximum cleanliness.

We take spa filtration seriously and aim to provide the cleanest spa experience possible. For instance, one person in a 1000 litre spa is equivalent to 30 people in a 30,000-litre swimming pool.

Tufflock Cabinet

STYLE, STRENGTH, AND ZERO MAINTENANCE

The Tufflock Cabinet system enhances the look of your spa while delivering exceptional durability and protection. Built to withstand the elements, the Tufflock Cabinet locks together seamlessly, offering a secure barrier to protect the inner workings of your spa.

Made from Eternawood, this maintenance-free material is both weather and UV-resistant, meaning it won't split or require staining. With Tufflock, you can enjoy your swim spa without the worry of ongoing upkeep.

World Class 8 Layer Arctic Insulation

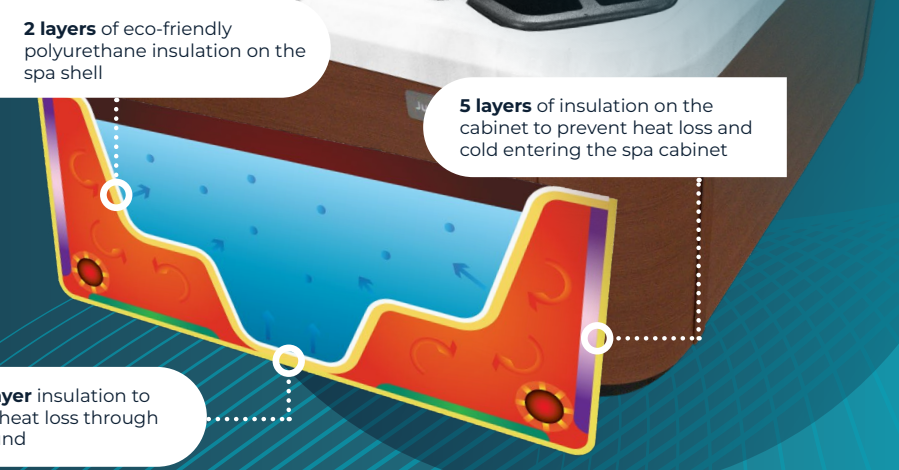

8 LAYER ARCTIC INSULATION

The revolutionary Arctic Insulation comes standard on all Cyclone Spas spa models, providing the most energy-efficient spa solution. Arctic Insulation advanced technology comprises of 8 layers which work together to trap heat inside the spa, preventing energy loss and assist in reducing overall running costs.

THE 8 LAYER INSULATION SYSTEM INCLUDES

- 5 layers that surround the spa cabinet
- 1 layer on the base to prevent heat loss through the ground
- 2 layers of sprayed eco-friendly polyurethane foam locking in the spa's temperature

These layers work together to provide an energy-efficient solution that is unmatched in the Australian spa market, creating a genuinely ground-breaking eco-friendly spa system.

2 layers of eco-friendly polyurethane insulation on the spa shell

5 layers of insulation on the cabinet to prevent heat loss and cold entering the spa cabinet

1 base layer insulation to prevent heat loss through the ground

Spa jet innovation for ultimate relaxation

FLUSH MOUNTED JETS

One of our primary objectives is to ensure that you receive the full benefits of hydrotherapy during your spa session. However, nothing is more disappointing than experiencing a loss of effectiveness in the hydrotherapy massage due to the spa jets not being flush mounted.

Our Cyclone Spas feature a specially designed jet recess that allows the spa jets to be embedded within the spa's shell. This flush mount installation process allows each jet to function at its maximum potential. The result is an optimised spa experience that delivers the best possible massage.

NO LEAK TECHNOLOGY

The Cyclone Spas range now features leak-resistant spa jet technology that allows the spa jets to form a secure and watertight seal that won't budge or leak. With this innovative upgrade, Cyclone Spas' jets no longer require silicone for installation, providing a sleek and maintenance-free appearance.

As part of the manufacturing process, all Cyclone Spas undergo a stringent 100-point water test to guarantee a completely leak free spa.

CUSTOMISABLE SPA COLOURS

We recognise the significance of personal style and aesthetics in spa customisation. Our range of Cyclone Spas provides tailored customisation options for your spa jets, head rests, diverters, air controls, charcoal filter boxes or grey coloured spa jet faces to create a unique and personalised spa that perfectly complements your taste and environment.

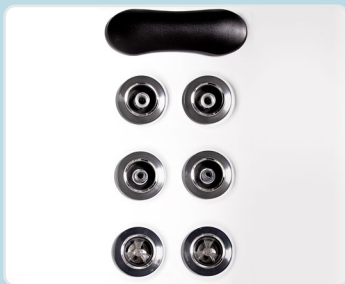

Experience hydrotherapy and its benefits

Hydrotherapy has been used for centuries to promote relaxation and wellness. With modern-day advancements in spa technology, which include strong massage jets, spas are now commonly used to relieve aches and pains and induce a relaxed state which some find beneficial to combat stress and sleeplessness.

The Cyclone Spas range provides the ultimate solution for your relaxation and hydrotherapy needs. Our 14 massaging therapies cater to a range of different focuses and functions, from broad-spectrum relaxation to targeted remedial treatment. You have the freedom to choose from a mix of therapies that are tailored to your individual needs, ensuring a personalised and unforgettable spa experience.

AQUAFLOW BACK THERAPY

Experience inner peace and relaxation with the AquaFlow Back Therapy. With up to 6 large Hurricane Jets, this therapy delivers complete back coverage and effectively melts away stress and tension, leaving you feeling rejuvenated in no time.

AQUASTREAM BACK THERAPY

The AquaStream Back Therapy is ideal for reviving your body after a long day of strenuous work or recovering from a sports injury. This therapy features up to 8 mini Hurricane Jets placed along the spine, providing relief to your aching back with some models also including additional neck jets to take the hydrotherapy to the next level.

AQUAHEAL BACK THERAPY

The AquaHeal Back Therapy is perfect for aiding tired or injured muscles while relaxing in a spa. With up to 12 micro Hurricane Jets positioned on either side of the spine and across the hips, this therapy targets common problem areas with precision.

AQUATORRENT BACK THERAPY

Indulge in a luxurious massage with AquaTorrent Back Therapy. It boasts a combination of 2 large Hurricane Jets, 2 mini Hurricane Jets, and 2 micro Hurricane Jets that create a soothing cascade, making it a versatile choice for overall relaxation. Selected AquaTorrent seats have additional neck therapy jets for the ultimate in relaxation.

AQUASOOthe BACK THERAPY

The AquaSoothe Back Therapy provides a powerful and soothing massage that targets the middle of the back. With a large Hurricane Jet located centrally on the back and 2 Air Massager Jets on each side of the lower back, this therapy offers complete relief to the entire body through the central spine area.

AQUAEYE BACK THERAPY

The AquaEye Back Therapy targets the central and lower back with up to 2 mini Hurricane Jets for the spine, and up to 2 Air Massager Jets for the middle and lower back. This results in a strong and even tension release for ultimate relaxation.

AQUAEASE BACK THERAPY

The AquaEase Back Therapy targets the central and lower back with up to 2 mini Hurricane Jets for the spine up to 2 Air Massager Jets for the middle and lower back. This results in a strong and even tension release for ultimate relaxation.

AQUAREPAIR BACK THERAPY

The AquaRepair Back Therapy targets shoulder tension with up to 2 mini Hurricane Jets, while up to 2 Air Massager Jets tackle the middle and lower back. Ideal for reducing aches in the upper to middle back.

AQUAFORCE BACK THERAPY

Offering a powerful hydrotherapy experience, the AquaForce invites you into a realm of relaxation. With 4 Hurricane Jets (selected seats also have additional Air Massage Jets) engineered to alleviate discomfort and create a deep soothing spa session, the AquaForce redefines luxury and relief.

AQUABLISS BACK THERAPY

The AquaBliss presents a commanding hydrotherapy experience, by utilising its 2 large Hurricane Jets aimed to target and relax your tense muscles after a long day or as an injury recovery aid.

AQUAHYDRO BACK & NECK THERAPY

The AquaHydro Back and Neck Therapy serves as a perfect haven for reinvigorating your body following a demanding workday or recuperating from an injury. This therapy incorporates up to 8 mini Hurricane Jets strategically positioned along the spine and shoulders. Coupled with micro Hurricane Jets, it delivers targeted relief.

AQUASPORT LEG THERAPY

Soothing tight and sore leg muscles is a relaxing experience. AquaSport Leg Therapy uses up to 8 mini Hurricane Jets or Air Massager Jets to target the core muscles of your legs for an effective all-over massage.

AQUAKNEAD LEG THERAPY

Soothing tight and sore leg muscles is a relaxing experience. AquaKnead Leg Therapy uses up to 8 mini Hurricane Jets to target the core muscles of your legs and feet for an effective all-over massage.

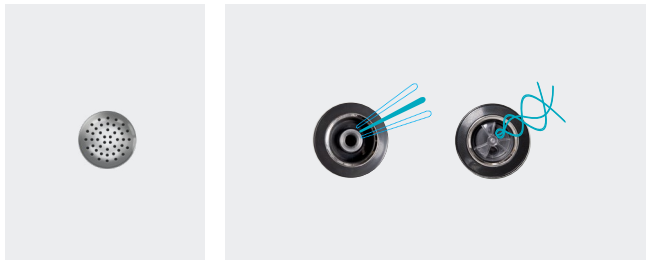

AQUAFLEX FOOT THERAPY

Relieving stress and body aches by stimulating circulation through the feet is possible with AquaFlex Foot Therapy. Featuring up to 2 large Hurricane Jets, it can envelop your feet in a soothing stream of high-powered water, some models also include up to 2 Super Jets.

Precision focused spa jets

Each spa jet within a Cyclone Spa is highly engineered to provide the optimal hydrotherapy massage and is crafted using marine-grade stainless steel. The custom design of the jets ensures efficiency, longevity, and precision, which can be experienced throughout every spa and hydrotherapy experience.

AIR MASSAGE JETS

Air enters the spa through air massaging jets, creating a flow of soft bubbles. This provides a gentle massaging effect to help your joints and muscles relax.

MICRO HURRICANE JETS

Specially designed to provide a strong, targeted massage, with a small jet face directing water flow onto troublesome areas of the body, providing relief from aches and pains.

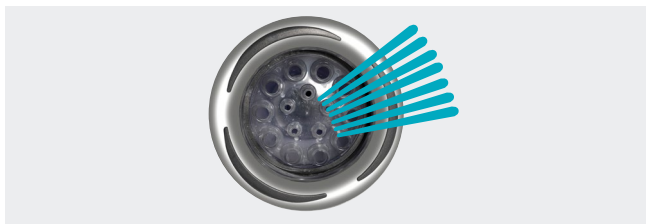

MINI AND MID HURRICANE JETS

Engineered for flexibility, precision, and a comprehensive massage to targeted areas of your body providing relief and relaxation.

LARGE HURRICANE JETS

Deliver a powerful all-over massage, the broad-spectrum jet heads are interchangeable and designed to provide optimal coverage to your back and limbs.

SUPER JETS

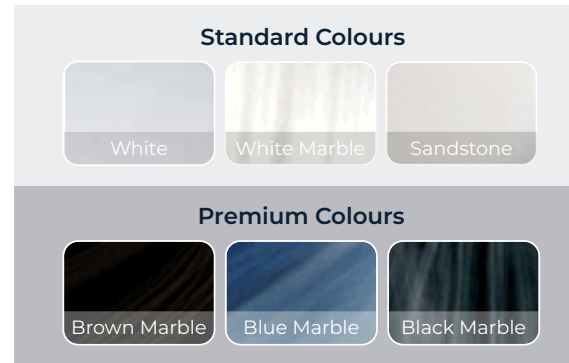

Provide an ultra-high flow of water that allows a large volume to give you the best foot massage experience by creating a turbulent action.

Take luxury to a new level

Cyclone Spas have considered every detail to create the ultimate spa experience. The modern design features elegant straight lines and a flat surface around the spa's lip, providing easy access to drinks while enjoying your hydrotherapy massage.

Keeping enhanced functionality as the primary focus, the filter box lid has been crafted with dual compartments to conveniently store your phone while keeping it dry, or alternatively, to serve as an ice cooler for your drinks, adding luxury and convenience.

SHELL COLOURS

CABINET COLOURS

Select Upgrade

The Cyclone Spas range continues to prioritise delivering a personalised spa experience that caters to your unique relaxation needs and objectives. As a part of this commitment, the Select Upgrade is available to elevate and enhance your spa experience by offering a variety of premium features that take your relaxation to the next level.

AQUASOUND

State-of-the-art built-in Bluetooth speakers that sit underneath the spa shell and transfer sound through the water using vibration. Aquasound also comes with amplifier and subwoofer

AQUAGLOW BACKLIT JETS

Elevate the ambience with an enhanced lighting feature, which illuminates the water and sets the perfect mood

ADDITIONAL MINI TOUCHPAD

With an additional mini touchpad, you can now effortlessly manage your spa and enjoy greater convenience and control

ULTRAVIOLET SANITISATION (UV)

The advanced UV light sanitation process effectively and naturally sanitises your spa water, providing extra cleanliness
